

# One Plank.

# Two Looks.

**TimberTech**  
**TwinFinish™**

**New 5/4 Plank with Two Surface Textures.**

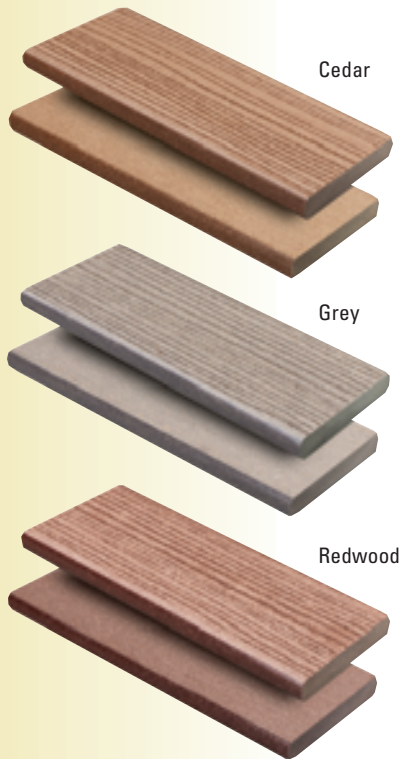

7" x 10"

Choosing TimberTech is now two times smarter. Every piece of new TimberTech TwinFinish 5/4 Plank features two surface textures—**brushed** and new **wood-grain**.

## TimberTech TwinFinish™

### New TimberTech TwinFinish 5/4 Plank

- Installs like traditional wood planks
- Highest quality material in the industry
- Will not sag like other alternative decking
- TimberTech quality at a great value
- Spans 16" on-center
- Available in 12', 16' and 20' lengths

**TimberTech's Traditional Brushed Surface** provides a uniform exterior look by texturing the plank's surface to increase exposure of the wood elements within the TimberTech material.

**TimberTech's New Wood-Grain Surface** provides the look of top quality, vertical grain lumber. The vertical wood-grain surface texture provided by TimberTech TwinFinish ensures that no repetitive pattern will be seen on your deck. Compare this to the repetitive "V"-shaped flatsawn lumber patterns offered by others.

TimberTech, as a Crane Plastics Company, has over 50 years experience producing products to precise tolerances.
